

CRUD OPERATION:

We have done the CRUD operation on the table “servicerequest” where we raise a new service request, view, update and delete.

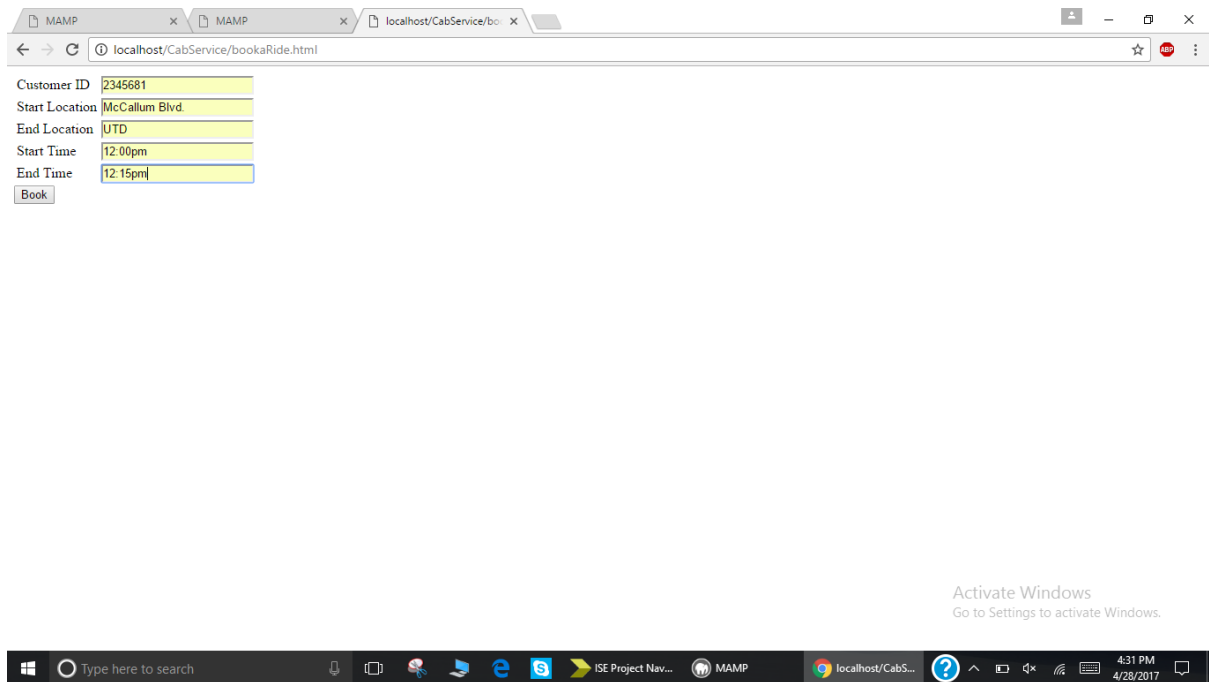

The main page after customer login :

Create operation : Book a ride

Raises a new service request .

It inserts the values into the servicerequest table :

The screenshot shows a web browser window with the address bar displaying 'localhost/CabService/bookaRide.html'. The browser has three tabs open, all labeled 'MAMP'. The page content includes a form with the following fields:

Customer ID	2345681
Start Location	McCallum Blvd.
End Location	UTD
Start Time	12:00pm
End Time	12:15pm

Below the form is a 'Book' button. The Windows taskbar at the bottom shows the system clock as 4:31 PM on 4/28/2017. An 'Activate Windows' watermark is visible in the bottom right corner of the browser window.

Read operation: View rides

A customer can view all the rides he/she has booked till now.

MAMP x localhost/CabService/view x

localhost/CabService/viewRide.html?

DriverNo	Service Request ID	Pick up Location	Drop Location	Start Time	End Time
5467	21474836481	McCallum Blvd.	UTD	10:00:00	10:15:00

Go Back to Main Page

Activate Windows
Go to Settings to activate Windows.

DBProject... DBProject... localhost/... MAMP

8:01 AM
4/28/2017

Update: Update journey time

The user can update the journey start and end time for the ride.

Delete operation: Cancel ride

The customer can cancel a ride which deletes the entry from the servicerequest table.
